## Abstract

In this context... We consider this problem P... P is a problem because... We propose this solution... Our solution solves P in such and such way.

## 1 Introduction

Paper structure...

## 2 Problem Description

Context, exposed with the **most precise terms possible** (don't open unwanted doors for the reader)

Probably set the vocabulary before to cut any misinterpretation

Constraints that influenced the solution (because the solution is not universal) *e.g.* our requirements for a solution, possibly not all satisfied. They should be sound and believable. Analysis of the criteria. Imagine that you are another guy having this problem do the constraint matches yours so that you could apply the solution

## 3 Proposed Solution

## 4 Discussion

## 5 Related Works

## 6 Conclusion

In this paper, we looked at problem P with this context and these constraints. We proposed solution S. It has such good points and such not so good ones. Now we could do this or that.
